- The TA was fantastic in recitation and office hours, helping me grasp the topic even more effectively. Thank you!

- Very responsive and incredibly helpful on problem sets.

- He wasn't a very good lecturer and seemed more interested in showing us that he knew how to do math than actually teaching us to do the math. I would often leave recitation more confused than when I entered

- Very helpful in OH, very detailed in explanations

- Eugene's classes were consistently well-organized and clear. His provision of recitation notes proved invaluable, not only for keeping pace with the class but also as excellent study material for the midterm. He was always approachable and attentive in addressing student queries.

- Eurgene was fantastic!

- From the one time I attended office hours, Eugene was very helpful! Heard great things about him from others in the course.
